Solution Ideas	Hurdles	How it affects students	What solution includes	Platform solution types
Create a website that students can use to report mold in their dorms	Some people may not report mold because they don't know it's there, they don't know where to report it, or they don't want to	This solution is relatively unintrusive in relation to students as the students can choose to report the issue instead of an inspection	<ul> <li>Website will include an option to report mold.</li> <li>Also includes info section on how to identify and prevent mold</li> </ul>	<ul> <li>A website that students can report if there is mold in their dorms</li> <li>(Add QR codes in all dorms that lead to the mold reporter website)</li> </ul>
Have Mold checks be included in the monthly bathroom maintenance	<ul> <li>This would require the maintenance workers to be able to identify mold.</li> <li>They would potentially have</li> </ul>	Students would most likely have their entire dorm checked during the bathroom cleans	<ul> <li>Monthly checks         for mold         included in         bathroom         cleanings</li> <li>If mold is found,         it's reported to         the school by the         employees</li> </ul>	The workers     could report any     mold to a     site/database
Add     dehumidifiers to     every dorm to     lessen the     amount of     moisture/     humidity in     dorms	to examine the full dorm which some students may be uncomfortable with	Depending on the size, the dehumidifiers may take up some space in dorms	<ul> <li>Dehumidifiers         will be installed         into every dorm         (regardless of         type)</li> <li>They will be</li> </ul>	The dehumidifiers would be used to reduce moisture and humidity inside dorms
Have specialists     go through     dorms bi-     monthly to check     for mold in     common areas     and dorms	<ul> <li>Ithis would most likely cost a lot.</li> <li>Some dorms have limited space</li> <li>This would cost money</li> <li>Some students may be uncomfortable with this</li> </ul>	Students would have their entire dorm examined bi-monthly	• Dorms being examined bimonthly can be inconvenient/intrusive to the students' day	The specialists would either have mold prevention equipment with them or put a report in about the mold  The specialists would either have mold  The specialist would either have mold  The specialist would either have mold  The specialist would either have mold either have
