

CSCE 242 – 2026 Project Topic Selection

Grace Miller

Name of Website: Fully Booked Library

Description Of Chosen Topic: I would like to do my project on the fictional library “Fully Booked”. The library will offer both books and movies/cd’s like other libraries, this is what the ‘catalogue’ will be like for the website. There will be a (fictional) location and contact information for the library that will be on the website. This website will include the genres that the library offers, as well as a list of the books that are available. The library will also hold events, such as a book donation drive, child-friendly book reading, an author visiting to promote their books, etc.

Website Pages:

1. **‘Home’** page that features the most popular books, upcoming events at the library, and photos of the library
2. **‘About us’** page that describes the (made-up) history of the library, photos, and other general information regarding the library.
3. **‘Book catalogue’** page that lists many of the books the library has, sorted by genre
4. **‘Movie (and or) CD catalogue’** page that lists some of the available movies or cd’s at the library, sorted by genre
5. **‘Visit us/Contact us’** page that includes the (made-up) location of the library, operating hours, contact information for the library
